One year ago, Y.F.U. sent me a note that Onaway was going to be my hometown for a year. Onaway, Michigan, no, I had never heard of it before. After searching for a while in the atlas, I found Onaway labeled as a small town in the forest region of Northern Michigan. What more could I ask for?

I'm glad I came to a small town, because there the genuine American way of life and friendliness still exists.

The place where I learned the most about the American nation and its people is right here at Onaway High. I owe many thanks to all the people of Onaway, who let me attend their nice school. Next semester, when I continue in a Swedish high school, I will miss many things such as school sports, school activities and the unique American friendliness between students and teachers.

Today, President Nixon is on a mission to Moscow for peace and understanding among the peoples of the earth. Today, 7000 Youth for Understanding exchange students from all over the world are spending an unforgettable year in the United States to bring about peace and understanding among the peoples of the earth. To make this program possible, Y.F.U. must find families who are willing to take a foreign exchange student. To open up a home for a teenager from another part of the world is too great a sacrifice to be measured in dollars and cents. Above all, I must say "thank you" to my host family, the Kelners at the 211 Grocery. They are wonderful!

During my stay, I haven't met any unfriendly people. That is the best way to describe how I feel for all of you in Onaway.

HÅKAN

P.S. If anyone of you is overseas and anywhere near Southern Sweden, you are always very welcome to come and stay with my family.

It is said that the world has changed. Nothing is as it formerly was. It is our opinion that our fathers and our grandfathers and their grandfathers before them have all said the same thing.

The world is changing. It has always been changing. It will always be changing.

How our world changes is dependent on our young people. Those young people who are entering upon the threshold of tomorrow.

We say to them, go ahead, face the world, its challenges. Form it, mould it into a better world for us and for those who follow.

We congratulate the graduates of the Onaway Area Schools.

You are better equipped for the task ahead because of the fine teaching staff of our local schools and by the efforts of your fellow citizens who have provided for your education.
